BioTector Compressor
Preventative Maintenance Partnership

Your Hach **BioTector Compressor** Preventative Maintenance Partnership (PMP) provides two scheduled preventative maintenance visits performed by a Hach Field Service Technician. In addition, the Hach Technical Support Team is available to assist in troubleshooting via a priority support number that will be included with your partnership documentation. **Offering available only when service coverage has been purchased for the associated Biotector analyzer.**

During the pre-scheduled site visits, your Hach Field Service Technician will complete:

Maintenance/Verification of Instrument Performance

- Perform limited cleaning.
- Replace two filter mats in fan and vent housing.
- Replace air inlet filter cartridge.
- Replace air bleed filter cartridge.
- Check and adjust the compressor pressure if necessary.
- Verify proper operation.

Reporting/Certificate of Performance

- Provide Hach Field Service Report with complete documentation of service performed and measurements/readings.
- Issue Certificate of Instrument Performance for each instrument that successfully passes final testing.

Training

- Provide basic end-user training on general instrument operation and maintenance (advance notice required).
