

**Last update: March 03.2021**

**Please note:**

- The language of the user interface is English!

**How to install the update:**

- Start your PC with administrator rights!
- Download the file "Setup-SVR100-Configurator-x.x.x.exe" to your PC.
- If the OTT SVR 100 Operating Program is already started: close the program.
- Start the file "Setup-SVR100-Configurator-x.x.x.exe" -> the "OTT SVR100 Configurator Setup Wizard" (Installation program) will open.
- Perform the steps shown on the screen.
