

# Don't wait for downtime... UPGRADE NOW!

Now is the perfect time to upgrade your equipment – whether you're using **older Hach models** or **another brand**. Some legacy models are no longer supported or serviced. Don't wait until it's too late – contact our Sales Team today!

## PROCESS INSTRUMENTATION

Old	UPGRADE	Advantages
<p>SC100/200 Controllers</p> 	<p>SC4500 &amp; SC1000 Controllers</p> 	<ul style="list-style-type: none"> <li>• SC4500: Scalable and future-ready, works with 30+ digital or analog sensors of up to 17 different parameters</li> <li>• SC1000: Maximum flexibility, multi-sensor, multi-parameter platform, plug-and-play operation</li> </ul>
<p>Amtax Ammonia Analyser</p> 	<p>NH6000sc Ammonia Analyser</p> 	<ul style="list-style-type: none"> <li>• Maximise uptime and accuracy with trusted GSE technology</li> <li>• Save time with biannual maintenance</li> <li>• Robust and lightweight intergrated filtration options</li> </ul>
<p>1720e or FT600 Turbidity Analyser</p> 	<p>TU53/TU54 Turbidity Analyser</p> 	<ul style="list-style-type: none"> <li>• Groundbreaking 360° x 90° detection technology</li> <li>• Matching lab and online results</li> <li>• Easier maintenance and auto cleaning</li> </ul>
<p>CL17 Chlorine Analyser</p> 	<p>CL17sc Colorimetric Chlorine Analyser</p> 	<ul style="list-style-type: none"> <li>• Maintenance made easy</li> <li>• Expanded connectivity</li> <li>• Increased flexibility</li> <li>• Peace of mind through comprehensive diagnostics</li> </ul>
<p>LDO 1 Dissolved Oxygen Sensor</p> 	<p>LDO sc 2 Dissolved Oxygen Sensor</p> 	<ul style="list-style-type: none"> <li>• No calibration required</li> <li>• No missed cldening cycles</li> <li>• No membranes to replace</li> <li>• No-drift technology</li> </ul>
<p>Nitratax sc Series Sensor</p> 	<p>NT3100sc UV Nitrate Sensor</p> 	<ul style="list-style-type: none"> <li>• Improved accuracy and low-level detection</li> <li>• Internal smart sensors to proactively alert you of potential measurement issues</li> <li>• No time for downtime</li> </ul>

# LABORATORY INSTRUMENTATION

## Old

## UPGRADE

## Advantages

2100P Turbidimeter

2100Q Turbidimeter

- Easy calibration and verification
- Accurate for rapidly settling samples
- Optical system for field precision
- Simple data transfer
- Convenient data logging

2100N/AN Turbidimeter

TL23xx or TU5200 Turbidimeter

- Improved and intuitive design
- Groundbreaking 360° x 90° detection technology (TU5200)
- Matching lab and online results
- EPA or ISO with Tungsten or LED option (TL23XX)

DR2\*\*\*/5000 Spectrophotometers

DR3900/DR6000 Spectrophotometers

- Simple preparation, fast execution
- Automatically avoids errors
- Accessories for high volume and high accuracy testing needs
- Guided procedures
- VIS and UV/VIS

SD900 Max Portable Sampler  
SD900 AWRS

AS950 Portable Sampler  
AS950 AWRS

- Easy and intuitive operation
- Simple maintenance at low cost
- Convenient data transfer and programming available
- Portable field and refrigerated options for compact or discrete sampling

PCII Pocket Colorimeter

DR300 Pocket Colorimeter

- Reliable—providing dependable, accurate measurements
- Durable—rugged, waterproof (IP67) design
- Simple—intuitive operation reduces potential manual error, ensuring accurate measurement data

HQd Series  
SensiON+  
Meters

HQ Series

- HQ Series Portable Meter Rugged, intuitive meter for field and lab electrochemical analysis
- HQD Benchtop Meters Lab-only meters for professionals needing dedicated setups
- Intellical Probes: Compatible with both meters—measure pH, DO, EC, TDS, and more
