Same Hach Quality with Improved Design

The Next Standard in Chlorine Analysis

Built on a legacy of reliability in online chlorine analysis, the advanced design of the CL17sc reduces routine maintenance touch time and provides powerful diagnostic features and enhanced connectivity. The result is less hassle, minimized risk of data loss, and even more reliable information to empower your decision making.

Easy to Upgrade

Expertise + Simplicity

The single parameter chlorine panels offers the CL17sc Chlorine analyzer and SC4500 controller in the convenience of one panel. These panel configurations are pre-engineered, ready to install, simple solutions that are designed to work together.

CL17sc Uses the Same Reagents You Trust

Formulated to meet the strictest quality standards

The Total Chlorine Reagent set is used with the Hach CL17/CL17sc analyzers as well as bulk analytical methods. Hach reagents provide a guarantee of accurate, consistent results.
