

SC4500 Software Package 3.24 – 2024.2

Release Notes

This document contains details about the latest release of SC4500

Release date: July 30th, 2024

What's new – Improvements

Feature Improvements

- Service loggers feature available for TU5300, TU5400, Phosphax LR and NH6000
- Authorization to install the same firmware version on a probe as already installed

Package sensor

- Ultraturb package 11 (application version 3.09)

Bug fixes and stability improvements

- Service password management improved. In some circumstances, it has been seen that entering a correct service password, the request was rejected. This SC4500 version fixes this issue.

What's New – Claros

Improvement for Claros connected devices

Check this page for a full list of software releases, upgrades, and technical specifications for Claros, the Water Intelligence System from Hach.
