

Custom Treatment Solutions

aria^{FLEX™}

Customized water treatment solutions

For more than 30 years, Aria Filtra® has provided municipal and industrial customers with reliable water treatment solutions to meet their most complex water challenges. For your specific needs, Aria Filtra has developed a family of customized, membrane-based water treatment solutions.

Our Aria FLEX™ systems are intelligently designed to solve the most challenging water treatment needs, no matter the size. Fully customizable, the Aria FLEX can be adapted to address today's most critical applications and scale to meet any capacity requirement.

QUICK FACTS

- Processing more than 1,500 million gallons per day (mgd) / 7 million cubic meters per day (m³/day)
- More than 1,200 Aria Filtra systems sold globally
- More than 70,000 modules installed
- More than 3,800 years of combined systems operation

Flexible designs

The Aria FLEX systems are optimized to produce anywhere from 2 mgd (8 million liters per day [mld]) to 50+ mgd (200+ mld), making these systems ideal for mid- to large-scale applications.

Our custom systems deliver:

- **Flexibility:** Custom-designed to meet the most challenging water treatment needs
- **Scalability:** Modular approach that allows systems to scale to accommodate any capacity
- **Reliability:** Robust system design to ensure consistent operation
- **Ease of use:** Automated controls and intuitive interfaces to simplify operation

Proven performance

Built to deliver the reliability and robustness Aria Filtra is known for, the Aria FLEX system treats surface water, groundwater, wastewater, and reuse water. Systems are engineered to eliminate contaminants and deliver pure water for drinking, industrial processes, discharge, and other vital uses.

Customer service

The Aria CARE™ service team is here to support you around the clock. Our expert technicians will be with your system throughout its lifecycle, beginning with installation and commissioning. Additional 24/7 phone support is also provided for ongoing assistance. Annual health checks, comprehensive service contracts, and more support tools are available upon request.

aria FLEX™

Aria Filtra has a proven track record for providing comprehensive water treatment solutions to municipalities and industrial customers around the globe. We provide solutions for various applications, such as:

Municipal

- Drinking water
- Water reuse and recycling
- Wastewater treatment
- Desalination

Industrial

- Water reuse and recycling
- RO and ion exchange pretreatment
- Boiler feedwater
- Cooling tower feedwater
- Mining and process water
